

PRODUCT	EXOKER- Doccia Shampoo
CATEGORY	DERMOCOSMETIC It is a body and hair cleanser that helps treat parasitic infections and scabies.
Benzyl benzoate	It has been shown to be toxic to <i>Sarcoptes scabiei</i> . Its mechanism of action is not yet clear, but given its effects on vertebrates, it is thought that it may act on the nervous system of parasites.
Sulfur 0,2%	Sulfur has antiparasitic and antimicrobial properties, and has traditionally been used to treat scabies. It works by killing parasites, such as scabies mites, and by promoting skin sloughing, helping to eliminate eggs and adult mites.
o.e cloves 0.05%	Cloves are known for their antimicrobial and anti-inflammatory properties.
Tea tree oil 0,1%	Tea Tree essential oil is known for its multipurpose anti-infective action and is also very effective as a skin and intestinal antiparasitic. Its main component, terpinen-4-ol (30-48%) has a characteristic floral and spicy odor that repels parasites.
Allantoin 0,2%	Allantoin has multiple effects on wound healing, thanks to its anti-inflammatory and antimicrobial activity. It has soothing, protective, conditioning and moisturizing effects on the skin.
Polidocanol 2,5%	For this ingredient, also used at a pharmacological level, it has been hypothesized that the antipruritic effect is due to a mild local anesthetic action.
How to use	Take a small amount of product, create a foam with water and apply on body and hair and rinse. SHAKE WELL BEFORE USE
